AES/AEJ ? Compact high-end analytical balance

only AEJ: Automatic internal adjustment in the case of a change in temperature > 0,5 °C and time-controlled every 4 hours

- only AES: Adjusting program CAL for quick setting of the balance accuracy, external test weights at an additional price
- Ergonomically optimised keypad for left and righthanded users
- Compact housing with anti-static plastic draught shield with 3 sliding doors for easy access to the goods to be weighed
- Short stabilisation time: Steady weight values within approx. 3 sec under laboratory conditions
- Capacity display: A bar lights up to show how much of the weighing range is still available
- GLP/ISO record keeping of weight values with date, time and serial number
