????????? KERN SP200K

Light measuring instrument SP ? Compact photometer, optimised for accurate light measurement, of LED light too

- For measuring illumination of office workstations, production workstations, etc.
- Photo sensor: Silicon diode, filtered
- Cosine correction for angular incident light
- Data-hold function, to freeze the current measurement
- Rotating sensor unit (+ 90 and -180°) for optimum alignment to the light source
- Sturdy protective cover for the photo sensor
- Increased service life: Impact protection through delivery in a soft box with light protection
- TRACK function for continuous recording of variable environmental conditions
- Peak Hold Mode to capture peaks
- Selectable measuring units: fc (foot-candle), lx
- Easy to toggle between units at the press of a button
- Option of fitting a column on the rear of the housing, ¼" thread
